ABOUT ME

With almost 10 years of experience, I have delivered successful web and mobile solutions that empower business objectives across platforms. My technical expertise in React, Angular, JavaScript, and more, combined with creative problem-solving, allows me to develop the innovative experiences users love. Ready to leverage my proven track record of creating captivating UIs that excel at converting and retaining audiences. Let's unlock growth opportunities together.

EXPERIENCE

TOUR, INC.
MOBILE APP DEVELOPMENT
2022-2023

- **Front-End Leadership:** Led front-end development for engaging user experiences, while also overseeing backend operations.
- **Request Management:** Effectively managed asynchronous and synchronous requests for seamless user interactions, front-end, and back-end.
- **Performance Optimization:** Meticulously optimized software performance to deliver immersive digital journeys, both on the front-end and back-end.
- **User-Centric Design:** Prioritized user-centric design principles for intuitive interfaces, enhancing overall user experiences across the application.
- **Innovation and Creativity:** Applied innovative thinking and creative problem-solving to deliver standout front-end and back-end solutions.

ZEHLENDORF. S.A.C
WEB DEVELOPER
2017-2021

- **E-commerce Venture Leadership:** Led the development of a web e-commerce project for a tire and alloy wheel company, overseeing both frontend and backend components.
- **Solo Project Creation:** Independently conceived and executed a comprehensive web e-commerce solution, covering all aspects of frontend and backend development.
- **End-to-End Development:** Managed the entire project lifecycle, from initial concept to the final implementation, ensuring seamless integration between frontend and backend.
- **Tire and Alloy Wheel Focus:** Specialized in creating an e-commerce platform tailored specifically for the tire and alloy wheel industry.
- **Demonstrable Achievement:** Successfully brought the project to life, demonstrating proficiency in both frontend and backend development for e-commerce solutions.

SKILLS

- Effective collaboration and communication in cross-functional teams.
- Strong problem-solving and debugging skills.
- Ability to adapt to new technologies and programming languages.
- Strong command of Algorithms.
- Advanced expertise in designing relational databases.
- Proficiency with version control systems like git.
- Experience in enhancing web application performance and implementing testing tools.
- Knowledge of best practices in secure web development.
- Familiarity with Agile or Scrum methodologies.
- Attention to detail and a commitment to writing clean, maintainable code.
- Continuous learning and staying updated with industry trends.
- Excellent problem-solving and analytical skills.
- Strong time management and project management abilities.

GOOGLE MET'S CLONE
Web Developer
2015-2016

- **Web Application Development:** Spearheaded the development of a web application that facilitated calling, chatting, and screen sharing functionalities.
- **Full Frontend Responsibility:** Held sole responsibility for frontend development, ensuring excellence in UX/UI design and user experience.
- **WebSockets Management:** Effectively managed WebSockets, a key component for real-time communication within the web application.
- **Library Utilization:** Leveraged top-tier libraries and frameworks to optimize the performance and functionality of the web application.
- **Comprehensive Collaboration:** Demonstrated expertise in end-to-end development by seamlessly integrating calling, chatting, and screen sharing features, enhancing the overall user experience.

ANACO CENTER, C.A
Software Developer
2013-2015

- **Leadership at Anaco Center:** Held a key position during my 2-year tenure at the Anaco Center, where I made significant contributions.
- **Software Conceptualization:** Played a pivotal role in conceptualizing administrative management software to address specific organizational needs.
- **Development Expertise:** Demonstrated strong skills in software development, crafting a solution tailored to enhance operational efficiency.
- **End-to-End Oversight:** Managed the entire project lifecycle, from development to successful implementation.
- **Operational Enhancement:** Successfully delivered administrative management software that notably improved the Center's operational efficiency and effectiveness.
- **Valuable Contributions:** Made substantial contributions to the organization's success during my time at the Anaco Center.

FREELANCER SOFTWARE DEVELOPER
Software Developer
2012-2013

- **Freelance Software Development:** Operated as a freelance software developer, delivering tailored solutions to clients.
- **Google Play Licensing:** Possessed a Google Play license, showcasing a commitment to app development on a major platform.
- **Marketing Analysis:** Conducted marketing analysis to optimize app visibility and reach among target audiences.
- **Management Software Expertise:** Proficiently developed management software in addition to apps, expanding the range of services offered.
- **Customized Solutions:** Specialized in providing clients with customized software solutions, addressing their unique needs and requirements.
- **Impressive Track Record:** Built a strong track record of successful projects, demonstrating expertise in software development and app creation.
